

# How to Open a Market Order on MT4

1. To open a market order click on **Tools** then select **New Order**.

2. You will need to select the **Symbol** you wish to trade, the **Volume** in terms of lot size. 1.0 is equal to 1 lot, or 100,000 units. Click either **Sell by Market** or **Buy by Market**. You will not be able to set the Stop Loss and Take Profit at the moment of placing the order under Market Execution. Please execute your order first, you will then be able to apply Stop Loss and Take Profit levels. To find out more about setting a Pending Order please see the tutorial [How to Set a Pending Order](#).
